

XXIXth Rencontres de Blois
Château de Blois, May 28 - June 2, 2017

Particle Physics & Cosmology

The standard model in particle physics, and beyond

Production properties of the Higgs boson

New trends in astrophysics and cosmology

The search for dark matter and dark energy

Neutrinos in the laboratory and the universe

Programme Committee

Etienne Augé, Orsay Univ., France

Jodi Cooley, SMU, Dallas, USA

Jacques Dumarchez, LPNHE, France

Daniel Froidevaux, CERN, Switzerland

Christophe Grojean, DESY, Germany

Boaz Klima, FNAL, USA

Thomas Lohse, Humboldt Univ., Germany

Sotiris Loucatos, Irfu-CEA and APC, France

Silvia Pascoli, Durham Univ. UK

Bolek Pietrzyk, LAPP, Annecy, France

Dorothea Samtleben, NIKHEF
and Leiden University, Netherlands

Chung-I Tan, Brown University, USA

Jean Trần Thanh Vân, Orsay Univ., France

Giulia Zanderighi, CERN, Switzerland
and Oxford University, UK

**New Models
New Physics
New Techniques**
